

Anarchy Threatened. The Constitution of the United States, Article II, section 4, declares that "The President, Vice-President, and all civil officers of the United States shall be removed from office on impeachment for and conviction of treason, bribery, or other high crimes and misdemeanors."

These are high constitutional prerogatives, and yet our Democratic contemporary on Saturday declared that if these prerogatives were exercised in a specified case, "there would come anarchy and the destruction of the Government."

If SAMUEL J. RANDALL is re-elected, and the President recognize the Democratic and treasonable members as the true Congress, Philadelphia will be disgraced by having one of her representatives in that revolutionary body.

7-30s! - 5-20s!

Beware How You Vote, Holders of 7-30s and 5-20s, National Loan and National Bank Stocks.

Suppose the Rebels of the South and their sympathizing friends, the Copperheads of the North, elect a majority of members to the next Congress of the United States. In that event, judging from the tone of the Rebel newspapers, the great question will be, "Shall Congress assume to pay the \$3,000,000,000 Confederate debt?"

In order to create an interest in the North in advocacy of the payment of the Confederate debt, millions upon millions of it will be sent North and sold at a low rate, or placed in the hands of influential men of the Copperhead party.

Remember, reader, the entire capital of nearly every National Bank is invested in National United States bonds, which are deposited with the Government to get national bank notes for circulation.

What Would the Democratic Party Have Done Without the Nigger?

He has been the beginning and the end of every political campaign for years, and what would the Democratic politicians have done without poor darkie?
